SUMMARY

Java Full-Stack Developer with experience in building scalable backend applications using Core Java, Spring Boot, and MySQL. Strong knowledge in OOPs, RESTful APIs, and CRUD operations. Skilled in developing responsive front-end applications using React.js. Passionate about clean code and efficient system design.

TECHNICAL SKILLS

- **Languages:** Java, SQL, JavaScript
- **Frameworks:** Spring Boot, Spring MVC
- **Frontend:** HTML, CSS, React.js, Bootstrap
- **Database:** MySQL, JDBC
- **Tools:** Git, GitHub, Postman
- **Core Concepts:** OOPs, Collections, Exception Handling, Multithreading, REST APIs

PROJECTS

ATM Machine System (Java, Spring Boot, MySQL)

- Designed and developed secure REST APIs for banking operations
- Implemented authentication, balance check, deposit, withdrawal
- Added account lock mechanism for security
- Tested APIs using Postman

Employee Management System (React, Spring Boot, MySQL)

- Developed a full-stack Mini Employee Management System with a React frontend and Java Spring Boot backend.
- Implemented CRUD operations to add, update, and delete employee records efficiently.
- Managed employee data securely using MySQL database with proper validation and exception handling.

Mini E-Commerce Website (React.js)

- Developed responsive UI with product listing & cart system
- Used component-based architecture
- Improved UI performance and user experience

WORK EXPERIENCE

IMCBOT Communications India Pvt Ltd

Sep 2023 – Jul 2024

Junior NOC Engineer

- Monitored network systems and ensured uptime
- Provided L1 support and resolved issues
- Worked with monitoring tools and reporting systems

MCS Infotech

Jan 2025 – Mar 2025

Quality Analyst

- Performed data validation and quality checks
- Ensured accuracy in KPO deliverables

EDUCATION

Bachelor of Science in Computer Science

2023

Madurai Kamaraj University

Percentage: 63.32%
